

Opening the *Dor*

2022-2023 Cohort

OVERVIEW

Honeycomb is thrilled to share that we are launching a second cohort of our Opening the *Dor* program.

Launched in 2020, the Opening the *Dor* initiative from Honeycomb is an intergenerational giving experience that connects teens and seniors through philanthropy, identity, storytelling and heritage. Opening the *Dor* provides grandparents/seniors with the opportunity to be active participants and contributors to Jewish legacy building and tradition within their community through collaboration with their grandchildren/teens. The program culminates in a teen-facilitated giving circle experience for grandparents/seniors in their community. Honeycomb will be accepting up to 20 communities to be part of this cohort.

This year's cohort will be divided into 2 groups:

- Opening the Dor: In-Network track application open to any organization that has an established Jewish youth philanthropy program
- Opening the Dor: Out-of-Network track application open to any organization that does NOT have an existing Jewish youth philanthropy program

Opening the *Dor:* In-Network Track groups will engage **returning** participants/alumni from their youth philanthropy program in learning and exploration sessions focusing on storytelling, heritage, shared history, family traditions, legacy, philanthropy and Jewish giving, culminating in a teen-run giving circle experience for grandparents/seniors in their community.

Opening the *Dor*: Out-of-Network track groups will first engage teens in a 3-part, collective grantmaking experience, enabling participants to learn deeply about their communities, examine their relationships to Jewish values and make strategic giving decisions. Once the participants have completed their own collective giving experience, they embark on the exploration sessions focusing on storytelling, heritage, shared history, family traditions, legacy, philanthropy and Jewish giving, culminating in a teen-run giving circle experience for grandparents/seniors in their community.
